PREFACE

Ò

It requires no argument to demonstrate to Soap Manufacturers the convenience, not to say the necessity, of a trustworthy Register of the Soap Brands in use in this country.

We have endeavored to make this compilation as complete and accurate as possible, giving our personal supervision to every detail. In this we have been cheerfully and generously seconded by all the prominent manufacturers to whom we return thanks for the courteous promptness with which they have furnished the required information in regard to the trade marks owned by them.

The passage of the new Trade Mark Law of the United States, which went into effect April 1, 1905, repealing and superseding all others, makes the issue of a new and carefully revised Register at this time highly importune. We have included the full text of the new statute and also, through courtesy of the Commissioner of Patents, the rules and regulations adopted for the purpose of carrying the law into effect.

Through the cordial co-operation of most of the soap manufacturers in Canada we have been enabled to register their trademarks also, something that has never been done before to any extent approaching completeness. The Canadian trade-marks will be found under separate headings.

We have also added a list of brands which for various reasons are not in use at the time of publication.

So far as Registered Trade-marks, both under the new law and under former statutes of the United States are concerned, the compilation is complete up to the time of going to press (July 1, 1905). A list of other trade-marks thereafter registered, will be published month by month in the SOAP GAZETTE AND PERFUMER.

CHARLES S. BERRIMAN.

108 Fulton Street, New York, N. Y., U.S.A.

PART I

٩

TRADE MARK LAW OF THE UNITED STATES

AN ACT To authorize the registration of trade-marks used in commerce with foreign nations or among the several States or with Indian tribes, and to protect the same.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trademark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a description of the trade-mark itself, and a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this Act and such regulations as may be prescribed by the Commissioner of Patents.

SEC. 2. That the application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation or association, to the best of the applicant's knowledge and belief, has the right to such use, either in the identical form or in such near

resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States.

SEC. 3. That every applicant for registration of a trade-mark, or for renewal of registration of a trade-mark, who is not domiciled within the United States, shall, before the issuance of the certificate of registration, as hereinafter provided for, designate, by a notice in writing, filed in the Patent Office, some person residing within the United States on whom process or notice of proceedings affecting the right of ownership of the trade-mark of which such applicant may claim to be the owner, brought under the provisions of this Act or under other laws of the United States, may be served, with the same force and effect as if served upon the applicant or registrant in person. For the purposes of this Act it shall be deemed sufficient to serve such notice upon such applicant, registrant, or representative by leaving a copy of such process or notice addressed to him at the last address of which the Commissioner of Patents has been notified.

Sec. 4. That an application for registration of a trade-mark filed in this country by any person who has previously regularly filed in any foreign country which, by treaty, convention, or law, affords similar privileges to citizens of the United States an application for registration of the same trade-mark shall be accorded the same force and effect as would be accorded to the same application if filed in this country on the date on which application for registration of the same trade-mark was first filed in such foreign country: *Provided*, That such application is filed in this country within four months from the date on which the application was first filed in such foreign country: *And provided*, That certificate of registration shall

not be issued for any mark for registration of which application has been filed by an applicant located in a foreign country until such mark has been actually registered by the applicant in the country in which he is located.

SEC. 5. That no mark by which the goods of the owner of the mark may be distinguished from other goods of the same class shall be refused registration as a trade-mark on account of the nature of such mark unless such mark—

- (a) Consists of or comprises immoral or scandalous matter;
- (b) Consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any States or municipality, or of any foreign nation: Provided, That trade-marks which are identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resemble a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, as to be likely to cause confusion or mistake in the mind of the public, or to deceive purchasers, shall not be registered: Provided, That no mark which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term, shall be registered under the terms of this Act: Provided further, That no portrait of a living individual may be registered as a trade-mark, except by the consent of such individual, evidenced by an instrument in writing: And provided further, That nothing herein shall prevent the registration of any mark used by the applicant or his predecessors, or by those from whom title to the mark is derived, in commerce with foreign nations or among the several States, or with Indian tribes, which was in actual and exclusive use as a trade-mark of the applicant or his predecessors from whom he derived title for ten years next preceding the passage of this Act.

SEC. 6. That on the filing of an application for registration of a trademark which complies with the requirements of this Act, and the payment of the fees herein provided for, the Commissioner of Patents shall cause an examination thereof to be made; and if on such examination it shall appear that the applicant is entitled to have his trade-mark registered under the provisions of this Act, the Commissioner shall cause the mark to be published at least once in the Official Gazette of the Patent Office. Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor, in the Patent Office within thirty days after the publication of the mark sought to be registered, which said notice of opposition shall be verified by

the person filing the same before one of the officers mentioned in section two of this Act. If no notice of opposition is filed within said time the Commissioner shall issue a certificate of registration therefor, as hereinafter provided for. If on examination an application is refused, the Commissioner shall notify the applicant, giving him his reasons therefor.

SEC. 7. That in all cases where notice of opposition has been filed the Commissioner of Patents shall notify the applicant thereof and the grounds therefor.

Whenever application is made for the registration of a trade-mark which is substantially identical with a trade-mark appropriated to goods of the same descriptive properties, for which a certificate of registration has been previously issued to another, or for registration of which another has previously made application, or which so nearly resembles such trade-mark, or a known trade-mark owned and used by another, as, in the opinion of the Commissioner, to be likely to be mistaken therefor by the public, he may declare that an interference exists as to such trade-mark, and in every case of interference or opposition to registration he shall direct the examiner in charge of interference to determine the question of the right of registration to such trade-mark, and of the sufficiency of objections to registration, in such manner and upon such notice to those interested as the Commissioner may by rules prescribe.

The Commissioner may refuse to register the mark against the registration of which objection is filed, or may refuse to register both of two interfering marks, or may register the mark, as a trade-mark, for the person first to adopt and use the mark, if otherwise entitled to register the same unless an appeal is taken, as hereinafter provided for, from his decision, by a party interested in the proceeding, within such time (not less than twenty days) as the Commissioner may prescribe.

SEC. 8. That every applicant for the registration of a trade-mark, or for the renewal of the registration of a trade-mark, which application is refused, or a party to an interference against whom a decision has been rendered, or a party who has filed a notice of opposition as to a trade-mark, may appeal from the decision of the examiner in charge of trade-marks, or the examiner in charge of interferences, as the case may be, to the Commissioner in person, having once paid the fee for such appeal.

SEC. 9. That if an applicant for registration of a trade-mark, or a party to an interference as to a trade-mark, or a party who has filed opposition to the registration of a trade-mark, or party to an application for the cancellation of the registration of a trade-mark, is dissatisfied with the decision of the Commissioner of Patents, he may appeal to the court of appeals of the District of Columbia, on complying with the conditions required in case of an appeal from the decision of the Commissioner by an applicant for patent, or a party to an interference as to an invention, and

the same rules of practice and procedure shall govern in every stage of such proceedings, as far as the same may be applicable.

Sec. 10. That every registered trade-mark, and every mark for the registration of which application has been made, together with the application for registration of the same, shall be assignable in connection with the good will of the business in which the mark is used. Such assignment must be by an instrument in writing and duly acknowledged according to the laws of the country or State in which the same is executed; any such assignment shall be void as against any subsequent purchaser for a valuable consideration, without notice, unless it is recorded in the Patent Office within three months from date thereof. The Commissioner shall keep a record of such assignments.

SEC. 11. That certificates of registration of trade-marks shall be issued in the name of the United States of America, under the seal of the Patent Office, and shall be signed by the Commissioner of Patents, and a record thereof, together with printed copies of the drawing and statement of the applicant, shall be kept in books for that purpose. The certificate shall state the date on which the application for registration was received in the Patent Office. Certificates of registration of trade-marks may be issued to the assignee of the applicant, but the assignment must first be entered of record in the Patent Office.

Written or printed copies of any records, books, papers, or drawings relating to trade-marks belonging to the Patent Office, and of certificates of registration, authenticated by the seal of the Patent Office and certified by the Commissioner thereof, shall be evidence in all cases wherein the originals could be evidence; and any person making application therefor and paying the fee required by law shall have certified copies thereof.

Sec. 12. That a certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payment of the renewal fees required by this Act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this Act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this Act, and when so renewed shall have the same force and effect as certificates issued under this Act.

SEC. 13. That whenever any person shall deem himself injured by the registration of a trade-mark in the Patent Office he may at any time apply to the Commissioner of Patents to cancel the registration thereof. The Commissioner shall refer such application to the examiner in charge of interferences, who is empowered to hear and determine this question and who shall give notice thereof to the registrant. If it appear after a hearing before the examiner that the registrant was not entitled to the use of the mark at the date of his application for registration thereof, or that the mark is not used by the registrant, or has been abandoned, and the examiner shall so decide, the Commissioner shall cancel the registration. Appeal may be taken to the Commissioner in person from the decision of examiner of interferences.

SEC. 14. That the following shall be the rates for trade-mark fees:

On filing each original application for registration of a trade-mark, ten dollars: *Provided*, That an application for registration of a trade-mark pending at the date of the passage of this Act, and on which certificate of registration shall not have issued at such date, may, at the option of the applicant, be proceeded with and registered under the provisions of this Act without the payment of further fee.

On filing each application for renewal of the registration of a trade-mark, ten dollars.

On filing notice of opposition to the registration of a trade-mark, ten dollars.

On an appeal from the examiner in charge of trade-marks to the Commissioner of Patents, fifteen dollars.

On an appeal from the decision of the examiner in charge of interferences, awarding ownership of a trade-mark or canceling the registration of a trade-mark, to the Commissioner of Patents, fifteen dollars.

For certified and uncertified copies of certificates of registration and other papers, and for recording transfers and other papers, the same fees as required by law for such copies of patents and for recording assignments and other papers relating to patents.

SEC. 15. That sections forty-nine hundred and thirty-five and forty-nine hundred and thirty-six of the Revised Statutes, relating to the payment of patent fees and to the repayment of fees paid my mistake, are hereby made applicable to trade-mark fees.

SEC. 16. That the registration of a trade-mark under the provisions of this Act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of

substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs.

SEC. 17. That the circuit and territorial courts of the United States and the supreme court of the District of Columbia shall have original jurisdiction, and the circuit courts of appeal of the United States and the court of appeals of the District of Columbia shall have appellate jurisdiction of all suits at law or in equity respecting trade-marks registered in accordance with the provisions of this Act, arising under the present Act, without regard to the amount in controversy.

SEC. 18. That writs of certiorari may be granted by the Supreme Court of the United States. for the review of cases arising under this Act in the same manner as provided for patent cases by the Act creating the circuit court of appeals.

SEC. 19. That the several courts vested with jurisdiction of cases arising under the present Act shall have power to grant injunctions, according to the course and principles of equity, to prevent the violation of any right of the owner of a trade-mark registered under this Act, on such terms as the court may deem reasonable; and upon a decree being rendered in any such case for wrongful use of a trade-mark the complainant shall be entitled to recover, in addition to the profits to be accounted for by the defendant, the damages the complainant has sustained thereby, and the court shall assess the same or cause the same to be assessed under its direction. The court shall have the same power to increase such damages, in its discretion, as is given by section sixteen of this Act for increasing damages found by verdict in actions of law; and in assessing profits the plaintiff shall be required to prove defendant's sales only; defendant must prove all elements of cost which are claimed.

SEC. 20. That in any case involving the right to a trade-mark registered in accordance with the provisions of this Act, in which the verdict has been found for the plaintiff, or an injunction issued, the court may order that all labels, signs, prints, packages, wrappers, or receptacles in the possession of the defendant, bearing the trade-mark of the plaintiff or complainant, or any reproduction, counterfeit, copy, or colorable imitation thereof, shall be delivered up and destroyed. Any injunction that may be granted upon hearing, after notice to the defendant, to prevent the violation of any right of the owner of a trade-mark registered in accordance with

the provisions of this Act, by any circuit court of the United States, or by a judge thereof, may be served on the parties against whom such injunction may be granted anywhere in the United States where they may be found, and shall be operative, and may be enforced by proceedings to punish for contempt, or otherwise, by the court by which such injunction was granted, or by any other circuit court, or judge thereof, in the United States, or by the supreme court of the District of Columbia, or a judge thereof. The said courts, or judges thereof, shall have jurisdiction to enforce said injunction, as herein provided, as fully as if the injunction had been granted by the circuit court in which it is sought to be enforced. The clerk of the court or judge granting the injunction shall, when required to do so by the court before which application to enforce said injunction is made, transfer without delay to said court a certified copy of all the the papers on which the said injunction was granted that are on file in his office.

SEC. 21. That no action or suit shall be maintained under the provisions of this Act in any case when the trade-mark is used in unlawful business, or upon any article injurious in itself, or which mark has been used with the design of deceiving the public in the purchase of merchandise, or has been abandoned, or upon any certificate of registration fraudulently obtained.

SEC. 22. That whenever there are interfering registered trade-marks, any person interested in any one of them may have relief against the interfering registrant, and all persons interested under him, by suit in equity against the said registrant; and the court, on notice to adverse parties and other due proceedings had according to the course of equity, may adjudge and declare either of the registrations void in whole or in part according to the interest of the parties in the trade-mark, and may order the certificate of registration to be delivered up to the Commissioner of Patents for cancellation.

SEC. 23. That nothing in this Act shall prevent, lessen, impeach, or avoid any remedy at law or in equity which any party aggrieved by any wrongful use of any trade-mark might have had if the provisions of this Act had not been passed.

SEC. 24. That all applications for registration pending in the office of the Commissioner of Patents at the time of the passage of this Act may be amended with a view to bringing them, and the certificate issued upon such applications, under its provisions, and the prosecution of such applications may be proceeded with under the provisions of this Act.

SEC. 25. That any person who shall procure registration of a trade-mark, or entry thereof, in the office of the Commissioner of Patents by a false or fraudulent declaration or representation, oral or in writing, or by any false means, shall be liable to pay any damages sustained in consequence thereof to the injured party, to be recovered by an action on the case.

Sec. 26. That the Commissioner of Patents is authorized to make rules and regulations, not inconsistent with law, for the conduct of proceedings in reference to the registration of trade-marks provided for by this Act.

SEC. 27. That no article of imported merchandise which shall copy or simulate the name of any domestic manufacture, or manufacturer or trader, or of any manufacturer or trader located in any foreign country which, by treaty, convention, or law affords similar privileges to citizens of the United States, or which shall copy or simulate a trade-mark registered in accordance with the provisions of this Act, or shall bear a name or mark calculated to induce the public to believe that the article is manufactured in the United States, or that it is manufactured in any foreign country or locality other than the country or locality in which it is in fact manufactured, shall be admitted to entry at any custom-house of the United States; and, in order to aid the officers of the customs in enforcing this prohibition, any domestic manufacturer or trader, and any foreign manufacturer or trader, who is entitled under the provisions of a treaty, convention, declaration, or agreement between the United States and any foreign country to the advantages afforded by law to citizens of the United States in respect to trade-marks and commercial names, may require his name and residence, and the name of the locality in which his goods are manufactured, and a copy of the certificate of registration of his trade-mark, issued in accordance with the provisions of this Act, to be recorded in books which shall be kept for this purpose in the Department of the Treasury, under such regulations as the Secretary of the Treasury shall prescribe, and may furnish to the Department facsimiles of his name, the name of the locality in which his goods are manufactured, or of his registered trade-mark; and thereupon the Secretary of the Treasury shall cause one or more copies of the same to be transmitted to each collector or other proper officer of customs.

SEC. 28. That it shall be the duty of the registrant to give notice to the public that a trade-mark is registered, either by affixing thereon the words "Registered in U. S. Patent Office," or abbreviated thus, "Reg. U. S. Pat. Off.," or when, from the character or size of the trade-mark, or from its manner of attachment to the article to which it is appropriated, this can not be done, then by affixing a label containing a like notice to the package or receptacle wherein the article or articles are inclosed; and in any suit for infringement by a party failing so to give notice of registration no damages shall be recovered, except on proof that the defendant was duly notified of infringement, and continued the same after such notice.

SEC. 29. That in construing this Act the following rules must be observed, except where the contrary intent is plainly apparent from the context thereof: The United States includes and embraces all territory which is under the jurisdiction and control of the United States. The word "States" includes and embraces the District of Columbia, the Territories of the

United States, and such other territory as shall be under the jurisdiction and control of the United States. The terms "person" and "owner," and any other word or term used to designate the applicant or other entitled to a benefit or privilege or rendered liable under the provisions of this Act, include a firm, corporation, or association as well as a natural person. The term "applicant" and "registrant" embrace the successors and assigns of such applicant or registrant. The term "trade-mark" includes any mark which is entitled to registration under the terms of this Act and whether registered or not and a trade-mark shall be deemed to be "affixed" to an article when it is placed in any manner in or upon either the article itself or the receptacle or package or upon the envelope or other thing in, by, or with which the goods are packed or inclosed or otherwise prepared for sale or distribution.

SEC. 30. That this Act shall be in force and take effect April first, nineteen hundred and five. All Acts and parts of Acts inconsistent with this Act are hereby repealed except so far as the same may apply to certificates of registration issued under the Act of Congress approved March third, eighteen hundred and eighty-one, entitled "An Act to authorize the registration of trade-marks and protect the same," or under the Act approved August fifth, eighteen hundred and eighty-two, entitled "An Act relating to the registration of trade-marks."

Approved, February 20, 1905.

في

Rules Governing the Registration of Trade Marks under the Act Approved February 20, 1905, to take Effect April, 1, 1905

UNITED STATES PATENT OFFICE, Washington, D. C. April 1, 1905.

The following rules, designed to be in strict accordance with the provisions of the act approved February 20, 1905, for the registration of trade-marks, are published for gratuitous distribution.

Applicants for registration and their attorneys are advised that their business will be facilitated by the observance of the forms on pages 31-35.

FREDERICK 1. ALLEN, Commissioner of Patents.

CORRESPONDENCE.

1. All business with the Office should be transacted in writing. Unless by the consent of all parties, the action of the Office will be based exclusively on the written record. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

- 2. Applicants and attorneys will be required to conduct their business with the Office with decorum and courtesy. Papers presented in violation of this requirement will be returned; but all such papers will first be submitted to the Commissioner, and only be returned by his direct order.
- 3. All letters should be addressed to "The Commissioner of Patents;" and all remittances by money order, check, or draft should be to his order.
- 4. A separate letter should, in every case, be written in relation to each distinct subject of inquiry or application. Complaints against the examiner in charge of trade-marks, assignments for record, fees, and orders for copies or abstracts must be sent to the Office in separate letters.
- 5. Letters relating to pending applications should refer to the name of the applicant, the serial number of the application, and the date of filing. Letters relating to registered trade-marks should refer to the name of the registrant, the number and date of the certificate, and the merchandise to which the trade-mark is applied.
- 6. The personal attendance of applicants at the Patent Office is unnecessary. Their business can be transacted by correspondence.
- 7. When an attorney shall have filed his power of attorney duly executed, the correspondence will be held with him.
- 8. A double correspondence with an applicant and his attorney, or with two attorneys, can not generally be allowed.
- 9. The Office can not undertake to respond to inquiries propounded with a view to ascertain whether certain trade-marks have been registered, or, if so, to whom, or for what goods; nor can it give advice as to the nature and extent of the protection afforded by the law, or act as its expounder, except as questions may arise upon applications regularly filed.
- 10. Express, freight, postage, and all other charges on matter sent to the Patent Office must be prepaid in full; otherwise it will not be received.

ATTORNEYS.

11. An applicant or an assignee of the entire interest may prosecute his own case, but he is advised, unless familiar with such matters, to employ a competent attorney. The Office can not aid in the selection of any attorney.

A register of attorneys is kept in this Office, on which will be entered the names of all persons entitled to represent applicants before the Patent Office. The names of persons in the following classes will, upon their written request, be entered on this register:

(a) Any person who, on June 18, 1897, was engaged as attorney or agent in the active prosecution of applications for patent before this Office, or had been so engaged at any time within five years prior thereto and is not disbarred, or is or was during such period a member of a firm so engaged and not disbarred, provided that such person shall, if required, furnish information as to one or more applications for patents so prosecuted by him.

- (b) Any attorney at law who is in good standing in any court of record in the United States or any of the States or Territories thereof and shall furnish a certificate of the clerk of such United States, State, or Territorial court, duly authenticated under the seal of the court, that he is an attorney in good standing.
- (c) Any person who has been regularly recognized as an attorney or agent to represent claimants before the Department of the Interior, or any bureau thereof, and is in good standing, provided that such person shall furnish a statement of the date of his admission to practice as such attorney or agent, and shall further show, if required by the Commissioner, that he is possessed of the necessary qualifications to render applicants valuable service, and is otherwise competent to advise and assist them in the presentation and prosecution of their applications before the Patent Office.
- (d) Any person not an attorney at law who shall file a certificate from a judge of a United States, State, or Territorial court, duly authenticated under the seal of the court, that such person is of good moral character and of good repute and possessed of the necessary qualifications to enable him to render applicants valuable service, and is otherwise competent to advise and assist them in the presentation and prosecution of their applications before the Patent Office.
- (e) Any firm which, on June 18, 1897, was engaged in the active prosecution, as attorneys or agents, of applications for patents before the Patent Office, or had been so engaged at any time within five years prior thereto, provided such firm or any member thereof is not disbarred, provided the names of the individuals composing the firm are stated, and provided also, that such firm shall, if required, furnish information as to one or more applications prosecuted before the Patent Office by them.
- (f) Any firm, not entitled to registration under the preceding sections, which shall show that the individuals composing the firm are each and all recognized as patent attorneys or agents, or are each and all entitled to be so recognized under the preceding sections of this rule.

The Commissioner may demand additional proof of qualifications, and reserves the right to decline to recognize any attorney, agent, or other person applying for registration under this rule.

Any person or firm, not registered and not entitled to be recognized under this rule as an attorney or agent to represent applicants generally, may, upon a showing of circumstances which render it necessary or justifiable, be recognized by the Commissioner to prosecute as attorney or agent any certain specified application or applications, but this limited recognition shall not extend further than the application or applications named.

No person, not registered as above provided, will be permitted to prosecute, as attorney, applications before the Patent Office.

12. Before any attorney, original or associate, will be allowed to inspect

papers or take action of any kind, his power of attorney must be filed. General powers given by a principal to an associate can not be considered. In each application the written authorization must be filed. A power of attorney purporting to have been given to a firm or copartnership will not be recognized, either in favor of the firm or of any of its members, unless all its members shall be named in such power of attorney.

- 13. Substitution or association may be made by an attorney upon the written authorization of his principal; but such authorization will not empower the second attorney to appoint a third.
- 14. Powers of attorney may be revoked at any stage in the proceedings of a case upon application to and approval by the Commissioner; and, when so revoked, the Office will communicate directly with the applicant, or such other attorneys as he may appoint. An attorney will be promptly notified by the docket clerk of the revocation of his power of attorney.
- 15. For gross misconduct, the Commissioner may refuse to recognize any person as an attorney, either generally or in any particular case; but the reasons for such refusal will be duly recorded and be subject to the approval of the Secretary of the Interior.

WHO MAY REGISTER A TRADE-MARK.

Act of Feb. 20, 1905, sec. 1.

16. A trade-mark may be registered by any person, firm, corporation, or association domiciled within the territory of the United States, or residing in or located in any foreign country which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, and who is entitled to the use of any trade-mark and uses the same in commerce with foreign nations, or among the several States, or with Indian tribes, upon payment of the fee required by law and other due proceedings had. (See Rules 17 and 19.)

Act of Feb. 20, 1905, secs. 1, 2, and 4.

17. No trade-mark will be registered to an applicant residing or located in a foreign country unless such country by treaty, convention, or law affords similar privileges to the citizens of the United States, nor unless the trademark has been registered by the applicant in the foreign country in which he resides or is located. In such cases it is not necessary that the trade-mark shall have been used in commerce with the United States or among the States thereof. (See Rule 31.)

WHAT MAY BE REGISTERED AS A TRADE-MARK.

Act of Feb. 20, 1905, secs. 1, 5 and 21.

18. No trade-mark will be registered to an owner domiciled within the territory of the United States unless it shall be made to appear that the

same is used as such by said owner in commerce among the several States, or between the United States and some, foreign nation or Indian tribe; no trade-mark will be registered to an owner residing in or located in a foreign country unless said country by treaty, convention, or law affords similar privileges to the citizens of the United States; no trade-make will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark, owned and in use by another. and appropriated to merchandise of the same descriptive properties, as to be likely to cause confusion or mistake in the mind of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term: no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual, evidenced by an instrument in writing: and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Act of Feb. 20, 1905, sec. 5.

19. Any mark used in commerce with foreign nations or among the several States or with Indian tribes may be registered if it has been in actual and exclusive use as a trade-mark of the applicant or his predecessors from whom he derived title for ten years next preceding the passage of the act of February 20, 1905. (See Rule 30.)

THE APPLICATION.

Act. of Feb. 20, 1905, sec 1.

20. An application for the registration of a trade-mark must be made to the Commissioner of Patents and must be signed by the applicant.

Act of Feb. 20, 1905, sec. 1.

- 21. A complete application comprises:
- (a) A petition, requesting registration, signed by the applicant. (See Form 1, p. 31.)
 - (b) A statement specifying the name, domicile, location, and citizenship

of the party applying; the class of merchandise, and the particular description of goods comprised in such class, to which the trade-mark is appropriated; a description of the trade-mark itself, and a statement of the mode in which the same is applied and affixed to the goods, and of the length of time during which the trade-mark has been used, and, if the applicant be a corporation or association, it must be set forth under the laws of what State or nation organized. (See sec. 29 of the statute, and Forms 2, 4, and 6, pp. 31, 32, and 33.)

- (c) A declaration, complying with section 2 of the statute. (See Forms 3, 5, 7, 8, and 9, pp. 31, 32, 33, and 34.)
- (d) A drawing of the trade-mark, which shall be a facsimile of the same as actually used upon the goods. (See Rules 34 and 35, and Form between pages 32 and 33.)
- (e) Five specimens (or facsimiles, when, from the mode of applying or affixing the trade-mark to the goods, specimens can not be furnished) of the trade-mark as actually used upon the goods.
 - (f) A fee of ten dollars.
- 22. The petition, the statement, and the declaration must be in the English language and written on one side of the paper only.
- 23. The name of the applicant will appear in the certificate of registration precisely as it is signed to the statement of the application, and therefore, the signature to the statement must be the correct signature of the applicant, and the name of the applicant wherever it appears in the papers of the application must agree with the name as signed to the statement.
- 24. No information will be given without authority of the applicant respecting the filing of an application for the registration of a trade-mark by any person, or the subject-matter thereof, unless it shall, in the opinion of the Commissioner, be necessary to the proper conduct of business before the Office.

Act of Feb. 20, 1905, secs. 14 and 24.

25. All applications for registration pending in the Patent Office at the time of the passage of the act of February 20, 1905, may be amended with a view to bringing them and the certificates issued under such applications under the provisions of said act, and the prosecution of such applications may be proceeded with under its provisions without the payment of further fee. When such an application is amended to bring it under the act of February 20, 1905, it will be given a serial number and date of filing under said act.

A trade-mark registered under the act of March 3, 1881, may be registered under the act of February 20, 1905, but the application for such registration will be subject to examination in the same manner as other applications filed under said act of February 20, 1905.

Act of Feb. 20, 1905, sec. 4.

26. An application for registration of a trade-mark, filed in this country by any person who has previously regularly filed in any foreign country which, by treaty, convention, or law affords similar privileges to the citizens of the United States an application for registration of the same trade-mark, shall be accorded the same force and effect as would be accorded to the same application if filed in this country on the date on which application for registration of the same trade-mark was first filed in such foreign country: *Provided*, That such application is filed in this country within four months from the date on which the application was first filed in such foreign country.

Act of Feb. 20, 1905, sec. 3.

27. Every applicant for registration of a trade-mark, or for renewal of registration of a trade-mark, who is not domiciled within the United States, shall, before the issuance of the certificate of registration, designate, by a notice in writing, filed in the Patent Office, some person residing within the United States on whom process or notice of proceedings affecting the right of ownership of the trade-mark of which such applicant may claim to be the owner may be served. This notice shall be indersed upon the file wrapper of the application.

Act of Feb. 20, 1905, sec. 3.

28. In proceedings relating to an application or a registration under the act of February 20, 1905, it shall be deemed sufficient to serve notice upon the applicant, registrant, or representative by leaving a copy of the process or notice of proceedings addressed to him at the last address of which the Commissioner of Patents has been notified.

DECLARATION.

Act of Feb. 20, 1905, sec. 2.

- 29. The application must be accompanied by a written declaration verified by the applicant, or by a member of the firm, or by an officer of the corporation or association applying, to the effect that he believes himself, or the firm, corporation, or association in whose behalf he makes the declaration, to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of his knowledge and belief, has the right to use the trade-mark, either in the identical form or any such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description, drawing, and specimens (or facsimiles) truly represent the trade-mark sought to be registered. (See Rule 17, and Forms 3, 5, 7, 8, and 9, pp. 31, 32, 33, and 34:)
 - 30. Where application is made under section 5 of the act of February 20,

1905, on the ground that the mark has been in actual and exclusive use as a trade-mark by the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of said act, the applicant shall, in addition to the requirements of section 2 of said act, make oath to facts showing such actual use for the period specified, and that, to the best of his knowledge and belief, such use has been exclusive for the period specified, and that the mark is now and has been continuously used by the applicant, or his predecessors, or by those from whom title to the same is derived, as a trade-mark. (See Form 8, page 33.)

Act of Feb. 20, 1905, sec. 2.

31. If the applicant resides or is located in a foreign country, the declaration required shall also set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration or of the application therefor, as the case may be. In such cases, it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. (See Form 9, page 34.)

Act of Feb. 20, 1905, sec. 2.

- 32. The declaration may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by the certificate of a diplomatic or consular officer of the United States, the declaration being attested in all cases, in this and other countries, by the proper official seal of the officer before whom the same is made.
- 33. Amendment of the declaration will not be permitted. If that filed with the application be faulty or defective, a substitute declaration must be filed.

DRAWING.

- 34. (1) The drawing must be made upon pure white paper of a thickness corresponding to two-sheet Bristol board. The surface of the paper must be calendered and smooth. India ink alone must be used, to secure perfectly black and solid lines.
- (2) The size of a sheet on which a drawing is made must be exactly 10 by 15 inches. One inch from its edges, a single marginal line is to be drawn, leaving the "sight" precisely 8 by 13 inches. Within this margin, all work and signatures must be included. One of the shorter sides of the

sheet is regarded as its top, and, measuring downwardly from the marginal line, a space of not less than 1 1-4 inches is to be left blank for the heading of title, name, number, and date. (See specimen of drawing between pages 32 and 33.)

(3) All drawings must be made with the pen only. Every line and letter, signatures included, must be absolutely black. This direction applies to all lines, however fine, and to shading. All lines must be clean, sharp, and solid, and they must not be too fine or crowded. Surface shading, when used, should be open.

Act of Feb. 20, 1905, sec. 1.

- (4) The name of the proprietor of the trade-mark, signed by himself or his attorney of record, must be placed at the lower right-hand corner of the sheet within the marginal line, but in no instance should it encroach upon the drawing.
- (5) When the view is longer than the width of the sheet, the sheet should be turned on its side, and the heading should be placed at the right and the signature at the left, occupying the same space and position as in an upright view, and being horizontal when the sheet is held in an upright position.
 - (6) Drawings should be rolled for transmission to the Office—not folded.

An agent's or attorney's stamp, or advertisement, or written address will not be permitted upon the face of a drawing, within or without the marginal line.

35. The Office, at the request of applicants, will furnish the drawings at cost.

EXAMINATION OF APPLICATIONS.

Act of Feb. 20, 1905, sec. 6.

- 36. All complete applications for registration are considered, in the first instance, by the examiner in charge of trade-marks. Whenever, on examination of an application, registration is refused for any reason whatever, the applicant will be notified thereof. The reasons for such refusal will be stated, and such information and references will be given as may be useful in aiding the applicant to judge of the propriety of further prosecuting his application.
- 37. The examination of an application and the action thereon will be directed throughout to the merits, but in each letter the examiner shall state or refer to all his objections.

Act of Feb. 20, 1905, sec. 6.

38. If, on examination of an application for the registration of a trademark, it shall appear that the applicant is entitled to have his trademark registered under the provisions of the law, the mark will be published in the

Official Gazette at least once. Such publication shall be at least thirty days prior to the date of registration.

If no notice of opposition be filed within thirty days after such publication, the applicant or his attorney will be duly notified of the allowance of his application, and a certificate of registration will be issued as provided in Rule 52.

The weekly issue closes on Thursday, and the certificates of registration of that issue bear date as of the third Tuesday thereafter.

AMENDMENTS.

- 39. The statement may be amended to correct informalities, or to avoid objections made by the Office, or for other reasons arising in the course of examination, but no amendments to the description or drawing of the trade-mark will be permitted unless warranted by something in the specimens (or facsimiles) as originally filed.
- 40. In every amendment, the exact word or words to be stricken out or inserted in the statement must be specified, and the precise point indicated where the erasure or insertion is to be made. All such amendments must be on sheets of paper separate from the papers previously filed, and written on but one side of the paper.

Erasures, additions, insertions, or mutilations of the papers and records must not be made by the applicant or attorney.

- 41. When an amendatory clause is amended, it must be wholly rewritten, so that no interlineation or erasure shall appear in the clause, as finally amended, when the application is passed to issue. If the number or nature of the amendments shall render it otherwise difficult to consider the case, or to arrange the papers for printing or copying, the examiner may require the entire statement to be rewritten.
- 42. After allowance, the examiner will exercise jurisdiction over an application only by special authority from the Commissioner.

Amendments may be made after the allowance of an application, if the case has not been printed, on the recommendation of the examiner, approved by the Commissioner, without withdrawing the case from issue.

43. After the completion of the application, the Office will not return the papers for any purpose whatever. If the applicant has not preserved copies of the papers which he wishes to amend, the Office will furnish them on the usual terms.

INTERFERENCE, OPPOSITION, AND CANCELLATION.

Act of Feb. 20, 1905, sec. 7.

44. In case of conflicting applications for registration of a trade-mark, or in any dispute as to the right to use the same, which may arise between an applicant and a registrant, the Office will declare an interference, in

order that the parties may have an opportunity to prove priority of use, and the proceedings on such interference will follow, as nearly as practicable, the practice in interferences between applications for patents.

Act of Feb. 20, 1905, secs 6 and 14.

45. Any person who believes he would be damaged by the registration of a mark may oppose the same by filing, in duplicate, a written notice of opposition (see Form 10, page 34), stating the grounds therefor, within thirty days after the publication (see Rule 38) of the mark sought to be registered, which notice of opposition shall be accompanied by the fee required by law, and shall be verified by the person filing the same, before one of the officers mentioned in section 2 of the act of February 20, 1905. (See Rule 32.)

Act of Feb. 20, 1905, sec. 13.

46. Any person deeming himself to be injured by the registration of a trade-mark in the Patent Office, may at any time make application (see Form 11, page 35) to the Commissioner to cancel the registration thereof. Such application shall be filed in duplicate, shall state the grounds for cancellation, and shall be verified by the person filing the same, before one of the officers mentioned in section 2 of the act of February 20, 1905. (See Rule 32.)

Act of Feb. 20, 1905, sec. 13.

- 47. If it appear, after a hearing before the examiner of interferences, that the registrant was not entitled to the use of the mark at the date of his application for registration thereof, or that the mark is not used by the registrant, or has been abandoned, and the examiner in charge of interferences shall so decide, the Commissioner shall cancel the registration of the mark, unless appeal be taken within the limit fixed.
- 48. In cases of opposition and of applications for cancellation, the examiner in charge of trade-marks shall forward the files and papers to the examiner in charge of interferences, who shall give notice thereof to the applicant or registrant. The applicant or registrant must make answer at such time, not less than thirty days from the date of the notice, as shall be fixed by the examiner in charge of interferences.
- 49. The proceedings on oppositions and on applications for cancellation shall follow, as nearly as practicable, the practice in interferences between applications for patents.

APPEALS.

Act of Feb. 20, 1905, secs. 8 and 14.

50. From an adverse decision of the examiner in charge of trade-marks upon an applicant's right to register a trade-mark, or to renew the registration of a trade-mark, or from a decision of the examiner in charge

of interferenes, an appeal may be taken to the Commissioner in person, upon payment of the fee required by law.

Act of Feb. 20, 1905, sec. 9.

51. From the adverse decision of the Commissioner of Patents upon the right of an applicant to register a trade-mark, or to renew the registration of a trade-mark, or from the decision of the Commissioner in cases of interference, opposition, or cancellation, an appeal may be taken to the court of appeals of the District of Columbia in the manner prescribed by the rules of that court.

ISSUE, DATE, AND DURATION OF CERTIFICATES.

Act of Feb. 20, 1905, sec. 11.

52. When the requirements of the law and the rules have been complied with, and the Office has adjudged a trade-mark registrable, a certificate will be issued, signed by the Commissioner, under the seal of the Patent Office, to the effect that the applicant has complied with the law and that he is entitled to registration of his trade-mark. The certificate shall state the date on which the application for registration was received in the Patent Office. Attached to the certificate will be a photolithographed copy of the drawing of the trade-mark and a printed copy of the statement and the declaration.

Act of Feb. 20, 1905, sec. 12.

53. A certificate of registration shall remain in force twenty years from its date, except that, in case a trade-mark be previously registered in a foreign country, such certificate shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed.

Act of Feb. 20, 1905, secs. 12 and 14.

54. A certificate of registration may be, from time to time, renewed for like periods on payment of the renewal fees required, upon request by the registrant, his legal representatives, or transferrees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificate of registration was issued or renewed.

Act of Feb. 20, 1905, sec. 12.

55. Certificates of registration in force on the 1st day of April, 1905, shall remain in force for the period for which they were issued, and shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of the act of February 20, 1905, and, when so renewed, shall have the same force and effect as certificates issued thereunder.

Act of Feb. 20, 1905, sec. 4.

56. A certificate of registration shall not be issued to an applicant located in a foreign country for any trade-mark for registration of which he has filed an application in such foreign country, until such mark has been actually registered by him in the country in which he is located.

ASSIGNMENTS.

Act of Feb. 20, 1905, sec. 10.

57. Every registered trade-mark and every mark for the registration of which application has been made, together with the application for registration thereof, shall be assignable in connection with the good-will of the business in which the mark is used. Such assignment must be by an instrument in writing and duly acknowledged according to the laws of the country or State in which the same is executed. Provision is made for recording such assignments in the Patent Office; but no such assignment will be recorded unless it is in the English language, nor unless an application for the registration of the mark shall have been first filed in the Patent Office, and such assignment must identify the application by serial number and date of filing, or, when the mark has been registered, by the certificate number and the date thereof. No particular form of assignment is prescribed.

Act of Feb. 20, 1905, sec. 10.

58. An assignment shall be void as against any subsequent purchaser for a valuable consideration, without notice, unless it be recorded in the Patent Office within three months from the date thereof.

Act of Feb. 20, 1905, sec. 11.

59. The certificate of registration may be issued to the assignee of the applicant, but the assignment must first be entered of record in the Patent Office.

COPIES AND PUBLICATIONS.

Act of Feb. 20, 1905, secs. 11 and 14.

- 60. After a trade-mark has been registered, printed copies of the statement and declaration in each case, with a photolithographed copy of the drawing of the trade-mark, may be furnished by the Office upon the payment of the fee. (See Rule 63.)
- 61. An order for a copy of an assignment must give the liber and page of the record, as well as the name of the applicant; otherwise an extra charge will be made for the time consumed in making a search for such assignment.
- 62. The Official Gazette of the Patent Office will contain a list of all trade-marks registered, with the name and address of the registrant in each case, an illustration of the trade-mark, a description of the trade-mark itself, and a recitation of the particular description of goods to which it is applied.

FEES.

Rev. Stat., 4893; act of Feb. 20, 1905, sec. 14.

63. On filing each original application for the registration of a	
	010.00
trade-mark	\$10.00
On filing each application for renewal of the registration of a	10.00
trade-mark	
On filing notice of opposition to the registration of a trade-mark	10.00
On appeal from the examiner in charge of trade-marks to the	
Commissioner of Patents	15.00
On appeal from the decision of the examiner in charge of inter-	
ferences, awarding ownership of a trade-mark or canceling the	
registration of a trade-mark, to the Commissioner of Patents	15.00
For manuscript copies, for every 100 words or fraction thereof	.10
For recording every assignment, agreement, power of attorney, or	
other paper, of 300 words or less	1.00
For recording every assignment, agreement, power of attorney,, or	
other paper of more than 300 words and less than 1,000 words	2.00
For recording every assignment, agreement, power of attorney, or	
other paper of more than 1,000 words	3.00
For abstracts of title:	
For the certificate of search	1.00
For each brief from the digest of assignments	.20
For searching titles or records, one hour or less	.50
Each additional hour or fraction thereof	.50
For a single printed copy of statement, declaration, and drawing	.05
If certified, for the grant, additional	.50.
For the certificate	
For the certificate	.25

Rev. Stat., 4935.

- 64. Money required for Office fees may be paid to the Commissioner of Patents, or to the Treasurer, or to any of the assistant treasurers of the United States, or to any of the depositaries, national banks, or receivers of public money, designated by the Secretary of the Treasury for that purpose, and such officer shall give the depositor a receipt or certificate of deposit therefor, which shall be transmitted to the Patent Office. When this can not be done without inconvenience, the money may be remitted by mail, and in every such case the letter should state the exact amount inclosed. All money orders, drafts, and checks should be made payable to the "Commissioner of Patents."
- 65. All money sent by mail, to the Patent Office, will be at the risk of the sender. All payments to the Office must be made in specie. Treasury notes, national-bank notes, certificates of deposit, money orders, or certified checks.

REPAYMENT OF MONEY.

Rev. Stat., 4936; act of Feb. 20, 1905, sec. 15.

66. Money paid by actual mistake, such as a payment in excess or when not required by law, or by neglect or misinformation on the part of the Office, will be refunded; but a mere change of purpose after the payment of money, as when a party desires to withdraw his application for the registration of a trade-mark, or to withdraw an appeal, will not entitle a party to demand such a return.

NOTICE OF REGISTRATION.

Act of Feb. 20, 1905, sec. 28.

67. It shall be the duty of the registrant to give notice to the public that a trade-mark is registered, either by affixing thereon the words "Registered in U. S. Patent Office," or "Reg. U. S. Pat. Off.," or when from the character and size of the trade-mark, or from its manner of attachment to the article to which it is appropriated, this can not be done, then by affixing a label containing a like notice to the package or receptacle wherein the article or articles are inclosed; otherwise, on a suit for infringement, no damages shall be recovered except on proof that the defendant was duly notified of infringement, and continued the same after such notice.

AMENDMENTS OF THE RULES.

68. All amendments of the foregoing rules will be published in the Official Gazette.

QUESTIONS NOT SPECIFICALLY PROVIDED FOR.

69. All cases not specifically defined and provided for in these rules will be decided in accordance with the merits of each case under the authority of the Commissioner, and such decision will be communicated to the interested parties in writing.

FREDERICK I. ALLEN,
Commissioner of Patents.

DEPARTMENT OF THE INTERIOR.

Approved, to take effect April 1, 1905.

E. A. HITCHCOCK, Secretary.

FORMS.

The following forms illustrate the manner of preparing papers for applications for registration of trade-marks. Applicants will find their business facilitated by following them closely:

(1) PETITION.

To the Commissioner of Patents:

The undersigned presents herewith a drawing and five specimens

(or facsimiles) of his trade-mark, and requests that the same, together with the accompanying statement and declaration, may be registered in the United States Patent Office in accordance with the law in such cases made and provided. (Signature) ————————————————————————————————————
Dated ———, 19—.
(2) STATEMENT FOR AN INDIVIDUAL.
To all whom it may concern:
Be it known that I, ————, a citizen (or subject, as the case
may be) of the ———, residing at ———, and doing business
at No. ——, ——— street, in said city, have adopted for my use a trade-mark
of which the following is a description:
My trade-mark consists of ————.
The trade-mark has been continuously used in my business since

The class of merchandise to which the trade-mark is appropriated is
, and the particular description of goods comprised in said class
upon which I use said trade-mark is ———.
The trade-mark is usually displayed on the packages containing the goods,
by placing thereon a printed label on which the same is shown [or state other modes of application].
(Signature)
(3) DECLARATION FOR AN INDIVIDUAL.
STATE OF ———————————————————————————————————
applicant named in the foregoing statement; that he believes the foregoing
statement is true; that he believes himself to be the owner of the trade-
mark sought to be registered; that no other person, firm, corporation, or
association, to the best of his knowledge and belief, has the right to use
said trade-mark, either in the identical form or in any such near resemblance
thereto as might be calculated to deceive; that said trade-mark is used by
him in commerce among the several States of the United States and
particularly between [here name the States] and (or) between the United
States and foreign nations or Indian tribes, and particularly with [here name
one or more foreign nations or Indian tribes, or both, as the case may be];
and that the description, drawing, and specimens (or facsimiles) presented
truly represent the trade-mark sought to be registered.
(Signature) ————————.
Subscribed and sworn to before me, a, this day
of 10
[T S] (Signature)
(Official character.)

(4) STATEMENT FOR A FIRM.

To all whom it may concern:
Be it known that we, ————, a firm domiciled in ———,
county of ———, State of ———, and doing business at No. ——,
street, in said city, and composed of the following members,
, citizens of (or subjects, as the case may be)
, have adopted for our use a trade-mark, of which the following
is a description:
Our trade-mark consists of —————.
The trade-mark has been continuously used in our business since
The class of merchandise to which the trade-mark is appropriated is
, and the particular description of goods comprised in said class
upon which said trade-mark is used is ———.
The trade-mark is usually displayed on the packages containing the
goods, by placing thereon a printed label on which the same is shown
[or state other modes of application].
(Signature)
By ———,
A member of the firm.
A member of the firm.
. (5) DECLARATION FOR A FIRM.
State of ———, County of ———, ss:
, being duly sworn, deposes and says that he is a
member of the firm, the applicant named in the foregoing statement;
that he believes the foregoing statement is true; that he believes said
firm is the owner of the trade-mark sought to be registered; that no other
person, firm, corporation, or association, to the best of his knowledge and
belief, has the right to use said trade-mark, either in the identical form or
in any such near resemblance thereto as might be calculated to deceive;
that said trade-mark is used by said firm in commerce among the several
States of the United States and particularly between [here name the States]
and (or) between the United States and foreign nations or Indian tribes, and
particularly with [here name one or more foreign nations or Indian tribes,
or both, as the case may be]; and that the description, drawing, and specimens
(or facsimiles) presented truly represent the trade-mark sought to be
registered.

(8) DECLARATION FOR APPLICANTS UNDER THE TEN-YEAR
SECTION.
STATE OF ————, COUNTY OF ———————————————————————————————————
, being duly sworn, deposes and says, that he is the
applicant named in the foregoing statement; that he believes the foregoing
statement is true; that he believes himslf to be the owner of the mark
sought to be registered; that no other person, firm, corporation, or
association, to the best of his knowledge and belief, has the right to use
said mark, either in the identical form or in any such near resemblance
thereto as might be calculated to deceive; that said mark is used by him
in commerce among the several States of the United States, and particularly
between [here name the States] and (or) between the United States and
foreign nations or Indian tribes, and particularly with [here name one or
more foreign nations or Indian tribes, or both, as the case may be]; that
the description, drawing, and specimens (or facsimiles) presented truly
represent the mark sought to be registered; and that the mark has been
in actual use as a trade-mark of the applicant, or his predecessors from
whom he derived title, for ten years next preceding the passage of the act
of February 20, 1905, and that, to the best of his knowledge and belief,
such use has been exclusive.a (Signature) ————.

ELECTROLYTIC CAUSTIC POTASH 90%

(98 PER CENT. ON A DRY BASIS)

GRIESHEIM'S "ELEKTRON" BRAND

FREE FROM CAUSTIC SODA

In spite of the remarkable and uniform purity of this Caustic Potash, the process by which it is made renders it relatively much cheaper than the Old Process Potashes.

It is used by the largest Textile and Toilet Soap Makers in this country and Europe in steadily increasing quantities.

Inquiries solicited.

A"Dry Powder," Best and Cheapest of all

One pound makes two gallons of snow-white paste, ready for use, and stronger and smoother than flour. Can be made up in two minutes. Free from acids. Will not discolor the most delicate paper. Being dry, it saves freight, and can be shipped in midwinter.

Tinnol the only reliable paste for labeling on Tin and Tinfoil. Strictly neutral, it prevents discoloring and rusting.

Blanchard Patent Soap Powder Mill

IS A VERY SUCCESSFUL MILL AND IS IN USE BY THE MOST PROGRESSIVE PEOPLE IN THE SOAP TRADE

IT HAS LARGE CAPACITY IT IS SELF-CONTAINED AUTOMATICALLY FEEDS ITSELF POWER AND SPACE REQUIRED ARE SMALL

IT CAN BE RELIED UPON UNDER ALL CONDITIONS

Blanchard 10-A Mill

It will grind soap powder rapidly, continuously and well, with practically no trouble from dust. By automatic ventilation the powder is kept cool at all times. It is durable, and requires no auxiliary machinery. It is simple and cheap and does the work completely at one operation.

KARIKA KARIKA

"Twitchell" Process

OF

GLYCERINE RECOVERY

Successfully used and introduced in the United States and Europe for the past five years, and the largest users of Digesters have adopted the process

- 1. Requires no high pressure Digesters, nor high pressure boilers.
- 2. Fats are decomposed in wooden tanks without pressure, with live or exhaust steam.
 - 3. Avoids all danger of disastrous explosions.
 - 4. Requires no attendant while decomposition is in progress.
- 5. Apparatus and equipment is inexpensive and within the reach of even the smallest factory.
- 6. Yields at least 95%-97% of the Glycerine contents of any animal or vegetable fat or oil, in ordinary factory practice.
- 7. Invariably gives higher saponifications than any digester or other known process.
- 8. The Glycerine yield is 50% more than by the best soap lye Glycerine recovery process.
 - 9. The Glycerine water that we obtain has 15% to 20% of pure Glycerine.
 - 10. Soap made from fatty acids does not discolor after ageing.
- 11. Soap made from the "Twitchell" fatty acids can be made as good and better color than that made from the original fat.
 - 12. There is absolutely no loss of fat or fatty acids or Glycerine.

Rutschman's Compound Helix Self=feeding Plodders

Have been thoroughly tested by most all Soap Manufacturers in the United States, Canada and many foreign countries. In every case have given satisfaction.

These Plodders will do more and better work for same power than any other machine on the market.

I have made some improvements lately, which increases capacity of machines without increasing power required.

No. O Plodder requires 3 horse power. Capacity, 250 to 300 pounds per hour.

No. 1 Plodder requires 5 horse power. Capacity, 350 to 400 pounds per hour.

DRY SOAP IN 10 MINUTES

OUR
AMERICAN BUILT

ContinuousSoap Crushing and Drying Machine

ENTIRELY REVOLUTIONIZES THE OLD METHOD OF SOAP-MAKING Liquid soap enters one end and comes out at the other end in the form of ribbons, with any percentage of moisture desired therein. Capacity, I to 8 tons dry soap per day.

Applicable to Toilet, Chip or Laundry Soap.

ENTIRE SATISFACTION ABSOLUTELY GUARANTEED

Self=Feeding Plodder

Most substantial and powerful Plodder made. Soap compressed harder than any other.

Cleaned in a moment.

Capacity, 4 to 6 tons daily.

COLOR and PERFUME MIXERS, MILLS, CRUTCHERS, FRAMES, PRESSES, CUTTING MACHINES, ETC.

THOS. F. CONDON & CO., 220 BROADW AY, NEW YORK

ADJUSTABLE SOAP STRAINER
Patent app.ied for

Lobee Rotary Soap Pumps

Are up-to-date, simple in construction, efficient, easy of access, durable, powerful and positive in action.

Can be operated at slow speed. Will not clog, churn or injure the grain of the soap and is the only pump that can be easily cleaned.

All pistons are steel and not cast iron. Valves are self-adjusting and do not require springs or cams to operate them.

SPECIAL No. 9 PUMP, THREE BEARINGS For pumping soap, grease, tallow, soap-stock, glue, etc.

Showing ease of access with removable or hand hole plate off, two valves out and one partly out. By this arrangement pump can be easily and thoroughly cleaned in a few minutes without dismounting the whole pump. This is a feature that no other Rotary pumps possess.

STEAM PUMP

For pumping soap, soap-stock, glue, lye, oils, etc.
